IN MEMORIAM

ROGER C. SANBORN

June 16, 1914 — November 19, 1989

Boscawen Selectman 1955 — 1975
Boscawen Planning Board 1963 — 1972, 1974 — 1975
Boscawen Fire Department 1940 — 1971
Boscawen Town Clerk 1944 — 1945
Daniel Webster Grange Fifty Year Member
Outstanding Devotion to the Community

Roger C. Sanborn owned and operated one of the few remaining dairy farms in Boscawen. He found time to serve the Town for many years in several capacities as listed above. We are pleased to dedicate this issue to his memory.

IN MEMORIAM

JOSEPH B. BOWES

April 10, 1910 — January 10, 1990

Boscawen Selectman 1981 — 1983
Boscawen Library Trustee 1978 — 1989
Boscawen Representative to General Court 1981 — 1986
Ezekiel Webster Grange 1981 — 1990
Outstanding Devotion to the Community

Joseph B. Bowes spent the last fifteen years of his life in Boscawen. After moving here, he immediately plunged into several activities, having special interest in the library and Grange. He also represented the Town for several years in the State Legislature.

**The State of New Hampshire
TOWN WARRANT**

THE POLLS WILL BE OPEN FROM 10:00 A.M. TO 7:00 P.M.

To the Inhabitants of the Town of Boscawen in the County of Merrimack in said State, qualified to vote in Town Affairs:

You are hereby notified to meet at the Town Hall in said Boscawen on Tuesday, the Thirteenth day of March, next at Ten of the clock in the forenoon, to act upon the following subjects:

1. To choose all necessary Town Officers for the year ensuing.
2. To raise such sums of money as may be necessary to defray town charges for the ensuing year and make appropriations of the same.
3. To see if the Town will vote to adopt the provisions of RSA 72:28, V and VI for an optional veterans' exemption and an expanded qualifying war service for veterans seeking the exemption. The optional veterans' exemption is \$100, rather than \$50.
4. To see if the Town will vote to adopt the provisions of RSA 72:35, IV for an optional property tax exemption on residential property for a service-connected total disability. The optional disability exemption is \$1,400 rather than \$700.
5. To see if the Town will vote to discontinue the Capital Reserve Sewer Fund created in 1955. Said funds, with accumulated interest to date of withdrawal, to be transferred to the Town's General Fund.
6. To see if the Town will vote to authorize the Selectmen to negotiate an agreement to acquire ten \pm (10) acres of land adjacent to the landfill to be used in conjunction with the transfer station at a cost not to exceed forty thousand dollars (\$40,000.00). Money to be taken from the transfer station bond. (2/3 ballot vote)
7. To see if the Town will vote to raise and appropriate a sum not to exceed eleven thousand dollars (\$11,000.00) for the purchase of a highway sander and wing plow for the Highway Department.
8. To see if the Town will vote to raise and appropriate three thousand dollars (\$3,000.00) to establish a Drug Fund to be used by the Police Department for the purchase of surveillance equipment and a small PC computer to assist in the keeping of records.
9. To see if the Town will vote to establish a Capital Reserve Fund under the provisions of RSA 35:1 for the purpose of refurbishing or replacing the 1975 Mack Fire Truck and to raise and appropriate the sum of \$35,000 to be placed in this fund.

10. To see if the Town will vote to raise and appropriate a sum not to exceed three thousand dollars (\$3,000.00) for the construction of a handicapped ramp and renovations related to the Town Office. This project is state mandated.

11. To see if the Town will vote to raise and appropriate a sum not to exceed eighteen thousand dollars (\$18,000.00) for the first phase of remapping the Town. Total cost of forty-five thousand dollars (\$45,000.00) to be budgeted over a three year period, with \$18,000 the first year, \$15,750 the second year and the balance of \$11,250 the third year.

12. To see if the Town will vote to raise and appropriate a sum not to exceed twelve thousand five hundred dollars (\$12,500.00) to help support the Penacook Rescue Squad for its emergency medical services and rescue operations in Town.

13. To see if the Town will vote to raise and appropriate a sum not to exceed six thousand three hundred dollars (\$6,300.00) for the services of the Concord Regional Visiting Nursing Association.

14. To see if the Town will vote to raise and appropriate a sum not to exceed three thousand dollars (\$3,000.00) toward the operating expenses of the Penacook Centers — two thousand five hundred (\$2,500.00) for the Youth Center and five hundred dollars (\$500.00) for the Senior Center.

15. To see if the Town will vote to raise and appropriate a sum not to exceed three thousand one hundred and ninety nine dollars (\$3,199.00) for the services to low income residents of Boscawen through the Concord Area Center Community Action Program, Belknap-Merrimack Counties, Inc.

16. To see if the Town will vote to deposit all revenues from the Land Use Change Tax (RSA 79-A) in a conservation fund established in accordance with RSA 36-A:25, II. These funds shall be non-lapsing, and shall be under the custody of the town treasurer. Monies in the conservation fund shall only be expended by a majority vote of the Conservation Commission for purpose of the conservation of natural resources in the Town of Boscawen. (By petition).

17. To see if the Town will vote to authorize the Selectmen to allow the local snowmobile clubs the use of the Boscawen-Canterbury bridge for a multi-use winter recreational trail, as long as the clubs can show that insurance coverage would protect the Town in the event of a lawsuit. (The structure would be a bridge within a bridge). The bridge would be closed to wheeled vehicles and padlocked during the non-winter seasons. (By petition).

18. To see if the Town will vote to discontinue that section of Weir Road that lies within the Town Forest.

19. To see if the Town will vote to empower the Selectmen to borrow such sums of money as may be necessary to meet current expenses of the Town until the taxes are paid to the Treasurer.

20. To see if the Town will vote to give the Selectmen authority to transfer or sell property taken by the town in default of Redemption from the Tax Lien or otherwise acquired and such sale to be at public auction with the Selectmen reserving the right to accept or reject any or all bids.

21. To see if the Town will vote to authorize the Selectmen to make application for and to accept and to expend on behalf of the Town any and all advances, grants, or other funds for Town purposes which may now or hereinafter be forthcoming from the U.S.A. or the State of New Hampshire or any Federal or State Agency.

22. To see if the Town will vote to authorize the Selectmen to accept and to expend on behalf of the Town private gifts and contributions for Town purposes.

23. To transact any other business which may legally come before this meeting.

Given under our hands and seal, this 23rd day of February, in the year of our Lord nineteen hundred and ninety.

DOUGLAS R. SUPRY	Selectmen
THOMAS DANKO	of
DAVID R. McKERLEY	Boscawen

13th March, 1990

We hereby certify that we gave notice to the inhabitants within named, to meet at time and place and for the purpose within mentioned, by posting up an attested copy of the within Warrant at the place of meeting within named, and a like attested copy at Town Hall and Carey's Market being a public place in said Town, on the 23rd day of February, 1990.

DOUGLAS R. SUPRY	Selectmen
THOMAS DANKO	of
DAVID R. McKERLEY	Boscawen

CONCORD REGIONAL VISITING NURSE ASSOCIATION

The Concord Regional Visiting Nurse Association continues to offer three major health services to the residents of Boscawen: Home Care, Hospice, and Health Promotion.

Home Care Services respond to the health care needs of those patients with acute or chronic illnesses that require skilled professional and para-professional care so they may return to or remain in their homes. Emphasis is on promoting independence and maximum functioning of the patient within the least restrictive setting.

Hospice Services provide professional and paraprofessional services to the terminally ill patient with a limited life expectancy. The goal is to enhance the quality of the patient's remaining life by helping he/she remain at home in comfort and dignity. Emphasis is on pain and symptom management and skilled intervention to meet the patient's special physical and emotional needs. This is the only certified Medicare Hospice Program in New Hampshire.

Health Promotion Services focus on the low and marginal income families and individuals to prevent illness by professional assessment and screening for health risks and needs, by early intervention to prevent, eliminate, or minimize the impact of illness and/or disability, and by anticipatory guidance and health teaching. Services rendered in the clinic setting are: child health, family planning, sexually transmitted disease, adult screening, immunizations, and HIV testing and counseling. Home visits are made in crisis situations or when needed health care cannot be given in the clinic. Senior Health services are provided at congregate housing sites. Professional and paraprofessional hourly home services are provided on a private fee-for-service basis. Emphasis is on promoting healthy children, families, and individuals through early intervention and health teaching.

Health Education and Instruction is part of each home visit or clinic visit.

Anyone in Boscawen may request service; patient, doctor, health facility, pastor, friend or neighbor. All requests are answered, but continuing home care will only be provided with a physician's order.

A call to the Concord Regional Visiting Nurse Association (224-4093) between the hours of 8:00 a.m. - 4:00 p.m. seven days a week is all that is necessary to start services or make inquiries. A Hospice nurse is on call (224-4093) 4:00 p.m. - 8:00 a.m. daily.

Federal regulations specify a charge is applicable to all visits. Fees are scaled for that person without a health plan who is unable to pay the full charge. However, for fee scaling, federal regulations require a financial statement be completed by the patient or responsible person. Town monies subsidize those visits that are scaled or that no fee is collectible.

This agency is certified as a Medicare/Medicaid Provider, licensed by the State of NH and is a member agency of the United Way of Merrimack County.

Total visits made during the year October 1, 1988 through September 30, 1989:

	No. of Clients	Visits
Home Care	27	557
Hospice	3	100
Health Promotion	36	162
12 Senior Health Clinics

SELECTMEN'S REPORT

The major accomplishment of 1989 was the near completion of the transfer station in late December. Originally scheduled to be in operation when the trash-to-energy plant opened in September, the station was held up by delays at both the state and local level. A final coat of paving remains to be applied in early spring. Once this is done, we plan to locate recycling facilities to start removing glass, metal cans, paper and cardboard from the waste stream.

Now that the transfer station is in operation, the state is requiring us to start planning a permanent closure of the old landfill. This will involve shaping the sides to shed rainfall and installing a plastic cover. We are hopeful to be able to spread this process over three years and to use unspent funds from the transfer station bond.

Selectwoman Sandra Brodner resigned in mid-year for personal and business reasons. David R. McKerley Jr. was appointed by the remaining selectmen to fill out the year.

An especially difficult chore to try to handle was the 10% cut that was voted at the 1989 Town Meeting. Although we were directed by town meeting voters to make cuts wherever we felt, the Department of Revenue Administration dictated that the cuts be made evenly across all departments. Therefore, on paper at least, even the insurance (health, property, liability, payroll) were cut. We knew what those annual costs were going to be and it did turn out that insurance was a large item in the red by year's end. We were and still are committed to retaining the full-time employees and their salaries. A comparison of costs and numbers of employees would show that we are providing services much more efficiently and economically than neighboring communities.

As many of you have noticed over the last several months, a lot of changes have taken place at the rear of the Torrent Fire Station. When completed, this very attractive addition will house the Penacook Rescue Squad, which for many years has provided the town with ambulance and rescue services.

Lengthy discussion with the leaders of the squad has resulted in an agreement that should benefit both parties far into the future. This will be a town building and in the unlikely event that the Rescue Squad should need to disband, the town could utilize the area.

The one outstanding and very significant aspect to be recognized about this new building is that no tax dollars were raised for this effort; it was through the very generous donations of labor and materials from local businesses and professional persons and with many very special gifts of money. We join the Rescue Squad in thanking each of you for your efforts, and your fine sense of community.

INDEPENDENT AUDITOR'S REPORT

CARRI, PLODZIK, SANDERSON
Professional Association
193 North Main Street
Concord, New Hampshire

To the Members of the Board of Selectmen
Town of Boscawen
Boscawen, New Hampshire

We have audited the accompanying general purpose financial statements of the Town of Boscawen and the combining and individual fund financial statements of the Town of Boscawen as of and for the year ended December 31, 1988, as listed in the table of contents. These financial statements are the responsibility of the Town of Boscawen's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

As described in Note 1C, the general purpose financial statements referred to above do not include the General Fixed Asset Group of Accounts, which should be included to conform with generally accepted accounting principles. The amount that should be recorded in the General Fixed Asset Account Group is not known.

In our opinion, except that omission of the General Fixed Asset Group of Accounts results in an incomplete presentation, as explained in the above paragraph, the general purpose financial statements referred to above present fairly, in all material respects, the financial position of the Town of Boscawen at December 31, 1988, and the results of its operations and the changes in financial position of its nonexpendable trust funds for the year then ended, in conformity with generally accepted accounting principles. Also, in our opinion, the combining and individual fund financial statements referred to above present fairly, in all material respects, the financial position of each of the individual funds of the Town of Boscawen at December 31, 1988, and the results of operations of such funds and the changes in financial position of nonexpendable trust funds for the year then ended, in conformity with generally accepted accounting principles.

BOSCAWEN PUBLIC LIBRARY

The total circulation of materials for 1989 was 8,373. We extend our thanks to the many generous people who assisted our limited budget with donations of money and many books.

Our loss of Joe Bowes as friend and Trustee is a heavy one. His dedication to the maintenance of the structure was constant and all phases were approached with enthusiasm. A memorial fund has been established for the purchase of books.

The tremendous task of cataloguing each volume at the branch library has been completed and the first inventory is planned. Congratulations are due to Bunny Randlett, librarian.

The same task is in process at the main library. Assisting librarian Barbara Keegan are Sarah Keegan and Doris Oliver. Mrs. Oliver comes to us as a RSVP volunteer and is retired as Children's Librarian from Schenectady, NY.

The summer reading program, California Raisin Reading Club, and the story hour were all a large success in 1989.

New membership applicants doubled with 73 registered at the main library alone. Library cards will be issued early this year. Your patronage and encouragement in growth is appreciated.

Library Hours

Main Library	Tuesday	2:30-5:00 p.m.
	Thursday	3:00-7:00 p.m.
Branch Library	Monday	3:30-6:30 p.m.
	Wednesday	3:30-7:00 p.m.

Lucile A. Carlson, Chairperson
Library Board of Trustees

The Human Service Department of the Town of Boscawen has helped 51 families — 126 applications — during the 1989 year. Some families were found to be eligible for State and/or Federal assistance — such as AFDC, Food Stamps, WIC, Housing, SSI, Job Training, Meals-On-Wheels, Fuel Assistance, N.H. Cares, Head-Start, Hook-Up, Help Line — and we were able to advise them along these lines. As the above chart shows, we have spent \$16,764.56 from our Welfare Budget during the 1989 year. Some of those we assisted were able to repay the Town — amounting to \$1,680.00 this year.

Occasionally we hear of Boscawen folks needing help but are reluctant to ask for it. Please continue to let us know if you hear of any such family. Your concern is very much appreciated. Some of our people help at the Soup Kitchen at the United Church of Penacook, and we want to thank them for their help. Delicious meals, free of charge, are served from 4:00 to 6:00 p.m. on Monday, Wednesday, and Friday.

We belong to the N.H. Local Welfare Administrators Association, the Community Action Advisory Committee, and the Merrimack County Welfare Committee. Meeting with these groups keeps us informed of the State and Federal programs available to our people. Through one of these meetings, we heard of money available from the Stewart B. McKinney Emergency Shelter Grants Program. We applied and were fortunate to be awarded \$1,750 to be used in our Welfare Department.

We appreciate very much the various organizations who have helped our folks in need this year. A special thanks to the Lion's Club, D.W. Sno-Beeper, Boscawen Congregational Church, Boscawen Ladies Aid, 4-H Club, Tri-Amity Guild, Boscawen Boy Scouts and Cub Scouts, Elektrisola, the Visiting Nurse Association, Merrimack County Ox-Bows, Boscawen Fire Department, and Chubb Life. Many of our people received bountiful baskets of food at Christmas time from the Capital Food Project. Through the Community Action Program (C.A.P.) many of our families have received fuel assistance, USDA food, and Meals-On-Wheels. We cannot finish this report without thanking Eugene Randlett for all the outstanding things he has done to help those in need — our sincere thanks, Gene!

Evelyn W. Beaulieu
Human Service Officer

FIRE DEPARTMENT REPORT

During 1989 the Boscawen Fire Department responded to 148 calls, a 12% increase over 1988's 132 responses.

Department training continues with programs at Fitzwilliam's Drill Yard, Lakes Regional Mutual Aid Association, Capital Area Fire Mutual Aid Compact and the State of New Hampshire Fire Standards and Training Commission. Inter-department training is scheduled on a volunteer and mandatory basis. Individual firefighters have completed or are still involved in the "Certified Firefighter One" course which consists of 100 hours.

The catastrophic fire of the year was at the Crete Farm with damages estimated at close to one half million dollars. Firefighters were on the scene for approximately fifteen hours.

I would like to thank all the officers and firefighters for their effort, cooperation, and understanding this past year; also a special thanks to the Boscawen Fire Department's Ladies Auxiliary who answer many alarms with us to provide food and beverages.

Remember, if you have *any* fire related problem at *any* time, do not hesitate to call the Fire Department!

Fire Phone Number: (1) 225-3355

Respectfully submitted,

Chief Roland "Joe" Bartlett

REPORT OF TOWN FOREST FIRE WARDEN AND STATE FOREST RANGER

During calendar year 1989, the State of New Hampshire experienced an average number of wildfires. The three leading causes of these wildfires were fires kindled without written permission of a Forest Fire Warden, children and debris burning fires that escaped control. All of these causes are preventable, but only with *your* help.

Please help our town and state forest fire officials with forest fire prevention. By New Hampshire State law (RSA 224:27), no person, firm or corporation shall kindle or cause to be kindled any fire, except when the ground is covered with snow, *without first obtaining a written permit from the Forest Fire Warden of the town where the burning is to be done.*

In order to eliminate false alarms, it is advisable to notify your local fire department whenever you intend to do any outdoor burning.

Violations of RSA 224:27 are a misdemeanor and you are also liable for paying all fire suppression costs (RSA 224:28 and RSA 224:36).

The State of New Hampshire, Division of Forests and Lands assisted many towns in wildland fire suppression during 1989 including several large fires in the Concord and Chesterfield areas, as well as the 100 acre fire on Mt. Belknap in Gilford, New Hampshire.

If you have any questions regarding New Hampshire forest fire laws, please contact your local Forest Fire Warden or the Division of Forests and Lands at 271-2217.

FOREST FIRE STATISTICS — 1989

# of Fires Statewide	550.00
Acres Burned Statewide	553.75
Cost of Suppression	\$93,957.00

Richard S. Chase
Forest Ranger

Roland "Joe" Bartlett
Forest Fire Warden

PARKS & RECREATION REPORT 1989

An average of thirty five children attended the summer program at the Boscawen Town Park. The children participated in arts & crafts, field trips to water slides, beaches & state parks, they took part in games and contests and many other fun activities. Due to the 10% budget, for the first time we charged a registration fee for the summer program.

We also cut the maintenance portion of the budget, so no money was spent in that area.

Boscawen 4-H members planted trees between the railroad tracks and the fence that runs along the tennis courts and ball fields.

Louise D.M. Laughlin
Chairman
Park & Recreation Committee

REPORT OF HEALTH OFFICER

During the year of 1989 the Health Officer answered 44 calls for assistance with health related situations. Some violations are being resolved through legal avenues but most health hazardous conditions were corrected through the mutual cooperation of residents and the Health Officer.

Should you have any questions regarding possible health or safety violations, please call me or the selectmen's office.

Respectfully submitted,

John Dagata
Health Officer
796-2609 / 796-2426

**CENTRAL NEW HAMPSHIRE
REGIONAL PLANNING COMMISSION**

329 Daniel Webster Highway
Boscawen, New Hampshire 03303
(603) 796-2129

The Central New Hampshire Regional Planning Commission (CNHRPC) is an association of municipalities in Central New Hampshire. Seventeen towns and the City of Concord are within Merrimack County and two towns are within Hillsborough County. Sixteen towns, the City of Concord, and Merrimack County are members in fiscal year 1990. The Town of Boscawen is a member in good standing of the Commission.

The CNHRPC is organized under RSA 36:45-53, which states that the purpose of the Commission is to prepare a coordinated plan for the development of the region. The statute also enables us to assist communities with local planning activities.

Three planners and one support person are currently employed by the CNHRPC. The staff prepares regional plans and provides professional planning assistance to member communities.

Our accomplishments over the last year include:

Housing: We published *Affordable Housing Needs in the Central Region* in September 1989. The report identifies the number of low and moderate income housing units needed and provided in the Region, allocates the deficiency to individual municipalities, creates targets by community for affordable housing, and recommends strategies for use by communities to address local housing needs.

Regional Plan: We adopted and published the "Goals and Objectives Statement" of the regional master plan. Being the heart of the plan, each objective will be addressed. The regional land use element should be completed this fiscal year.

Solid Waste: The Commission prepared and the Central New Hampshire Solid Waste District adopted the District *Solid Waste Management Plan*. The plan contains a long term strategy to deal with landfill and incineration requirements, recycling, septic and sludge disposal, and household hazardous waste collection through the year 2005.

Recycling: The Regional Recycling Task Force is investigating methods to implement efficient, comprehensive, and cost-effective recycling throughout the Region. The CNHRPC should soon receive a grant through the Governor's recycling initiative to assist municipalities in obtaining and installing equipment necessary to operate recycling programs.

Household Hazardous Waste Collection: The CNHRPC organized a household hazardous waste collection on October 14, 1989. Cosponsors were Wheelabrator Concord, LP, the City of Concord, and the Towns of Allentown, Boscawen, Bow, Canterbury, Dunbarton, Hopkinton, and Pembroke.

During 1989 CNHRPC activities in Boscawen included assisting the Planning Board in finalizing three elements of the master plan; assisting the Zoning and Planning Boards in reviewing a major development; assisting the Planning Board in obtaining specialized development review assistance; writing a letter of support for the Town's successful Land Conservation Investment Program grant; assisting the Selectmen in investigating grants for handicapped access; and estimating the acreage of an industrially zoned area.

Bill Klubben
Executive Director

LIFE SAFETY OFFICER REPORT

This year I would like to explain what the Life Safety Code is and how it applies to the population of Boscawen.

The National Fire Protection Association is an organization that is made up of people from all walks of life who share a common concern. That concern is protection from the potential danger of uncontrolled fire and other related areas. Within the NFPA there is a committee dedicated to constantly reviewing and upgrading the Life Safety Code as newer or better methods of protection evolve. "The purpose of this Code is to establish minimum requirements that will provide a reasonable degree of safety from fire in buildings and structures."

Compliance with certain other standards and codes that address such as electrical, heating, fuel supply, etc., are also a requirement of the Code. In referencing standards that have already been established, any duplication or contradiction is avoided.

The Code as adopted by the Town of Boscawen, applies to all buildings, structures, and premises, except for single-family dwellings that are occupied by the owner. Although the Code makes provision for one-family dwellings, it was felt that believe it or not, a man's home is still his castle, and to properly apply the Code, a full time employee would be needed. In the case of a duplex type building where the owner lives in one portion, the Code does apply to portions that are occupied by other parties.

The Life Safety Code is also mandated by the State of New Hampshire as part of the Fire Code and basically applies in the same manner. Because we have an Ordinance adopting the Life Safety Code, the Fire Marshal pretty much leaves administration and enforcement to local authorities, and stands ready to assist if called on.

It is important to note that other fire safety measures, including the State Fire Code, may apply regardless of our Ordinance. Should anyone need information on what is required of them, contact the town offices and ask that I get in touch with them.

One last note as to why some buildings have already been inspected while others may be older or right next door and have not.

It is my intent to make higher occupancy buildings a priority for routine inspections, however, there are circumstances that come up needing attention. When new construction is either in the planning stage or in progress, it is important to determine if Code requirements will be met. Also when a building use change occurs, requirements may vary from one use to the other. For obvious reasons, when a call is received from anyone who feels that a hazard may exist at property of their own or that of another, the situation is looked into immediately.

My thanks goes to all who have cooperated in the preceding year, and as always, please do not hesitate to call with any questions.

Respectfully,

Harold A. Hamilton

BOSCAWEN OLD HOME DAY REPORT

The 1989 Old Home Day celebration started with the tenth annual Miss Boscawen & Junior Miss Boscawen Pageant on August 25. Melissa Morrisette, daughter of Roger and Harriet Morrisette of Boscawen was crowned 1989 Miss Boscawen and Janeek Smith, daughter of Allan and Ida Smith of Boscawen, was runner-up. Lisa Gray, daughter of Tom and Kathleen Gray of Penacook, was crowned 1989 Junior Miss Boscawen and Marie Cochran, daughter of Ray and Becky Levesque of Boscawen was runner-up. Following the pageant was a teen dance held at the Merrimack Valley High School.

On Saturday, August 26, the activities started with the parade. This year our theme was "Boscawen Celebrates The Holidays." Once again families, organizations, individuals, and school groups participated in the parade. There were walking Christmas presents, elves, floats with goblins, saints, Christmas trees, and the Thanksgiving turkey. The parade also included bands, antique cars, horses, and the usual line of Boscawen fire trucks, Penacook Resque Squad, and Boscawen Police cars.

After the parade, everyone was invited to the Town Park to participate in a number of different activities. Young and old enjoyed playing beano, with donations from local merchants being awarded for prizes. Children enjoyed a magic show, and the teens found the S&W Blizzards' skateboarding performance exciting. Many youngsters brought their favorite stuffed animals to be judged in the Stuffed Animal Show. There were awards given for the smallest, largest, longest, shortest, cuddliest, best costume, etc., etc. John and Bernard Davis of Boscawen won first place in the doubles horseshoe contest, and Rick & Ray Fife of Boscawen were second. Again this year the Boscawen Police Department and the Boscawen Fire Department engaged in their annual Old Home Day softball game. This year the Police Department came out the winners, but only by a slim margin — the score 13-12.

You might say that this year's Old Home Day was the "year of the cow." The Old Home Day Committee had a new design for teeshirts (thanks to Sandy Morse for her idea, and Patty Glover for her drawing talents) that included a cow. Also, we joined many other organizations in trying out a new game "When The Chips Fall." A cow from Roger Sanborn's farm was the star player in this game.

Special recognition prizes were given to Lena Dube of Penacook for being the oldest person present; Britney Parkinson, 5 weeks old, for being the youngest person, the Frost family for being the largest family in attendance with 20 members presents. Once again our chicken barbecue was a sell-out. Our compliments and thanks to our cook, Tom Danko, and his many helpers. Saturday evening there was an adult dance. This was held at the Town Park tennis court. A few residents put on their heavy sweaters and enjoyed dancing in the moonlight under the stars.

Our 1989 celebration was a great success. Without the support of the townspeople and our local merchants, Boscawen Old Home Day would not survive. The committee extends its sincere thanks to all who helped to make this year's Old Home Day a success. We look forward to seeing everyone again next year.

Thanks again for your support.

Respectfully submitted,
Kathleen F. Jaworski, President
Boscawen Old Home Day Committee

BOSCAWEN POLICE REPORT

CHIEF'S MESSAGE

We have just completed a very trying year and decade. As I sat down to write my yearly message I reviewed those of my predecessors' as well as my own. Over and over again the gist of those yearly summaries pointed to increases in the department's workload. To illustrate this I have attached the following graph comparison for the workload of the last decade.

In 1989, the Town voted to adopt a 10% cut of the overall Town budget, which resulted in an actual 14% cut from the Police Department's budget. Due to this the department had to prioritize calls for service and actually cut services to handle the 9% increase in calls.

This year's budget is essentially the same budget as my 1989 proposal. There is also a warrant article for the appropriation of \$3,000.00 to purchase equipment for our fight against drugs in the Town of Boscawen. As drugs effect everyone today in one form or another I would ask for your support of this article.

I would also once again pledge to the Town of Boscawen that the department will continue to strive to maintain its professionalism and service to the community. I thank you for your continued support.

Respectfully submitted,

Mark K. Pepler
Chief of Police

TOTAL 1990 BUDGET		\$4,486,762
Less, portion of surplus applied to 1990 budget		<u>(99,092)</u>
NET — to be raised by Cooperative Member Municipalities		\$4,387,670

@ GAT of 120,375, cost = \$36.45/ton

II. Summary The 1989 year was an exciting one for the Cooperative as the long awaited Plant and Ashfill came on line in time and within budget. When all factors are complete we will be entering the 1990 year with an anticipated \$50,000 in our Operating Reserve Fund and the same Tipping Fee of \$36.45 per ton as we had in 1989. Including the shutdown period from April 1989 to August 28, 1989 and the Commercial Operations from August 28 to November 30, 1989 the Plant processed 107,285 tons of refuse and the Co-op disposed of 41,529 tons of ash through its Operator, J. D. McLeod at the Ashfill. It is anticipated that the Co-op Towns/Cities will dispose of 120,000 tons of trash in 1990 which will be about 78% of the Plant capacity. Once again many thanks to the Co-op representatives who have spent many evenings in guiding this project to its present status.

Ronald H. Ford
Project Director

TOWN OF BOSCAWEN EMPLOYEE SALARIES

	1989	Proposed 1990
Selectmen Chairman	\$ 2,500	\$ 2,500
Selectman	2,200	2,200
Selectman	2,200	2,200
Administrative Assistant	20,000	21,600
Secretary/Town Office	15,080	16,287
Treasurer/Bookkeeper	15,500	16,740
Tax Collector	14,400	15,552
Town Clerk	6,400 + fees	6,912 + fees
Town Hall/Janitor	1,400	1,515
Planning/Zoning Secretary	3,000	3,500
Zoning Officer	1,800	1,950
Chief of Police	28,000	30,250
Police Sergeant	21,300	23,000
Patrolman #1	20,800	[41,000] 1 & 2
Patrolman #2	18,400	
Police Dept. Clerk/Dispatcher	15,600	16,850
Crossing Guard	2,300	2,500
Chief of Fire Department	2,000	2,495

Parks & Rec. Salaries (2)	3,500	3,780

January 22, 1990

To Whom It May Concern:

The Budget Committee of the Town of Boscawen, New Hampshire has reviewed the 1990 budget requests for all boards and departments on a line by line basis. We have also conducted meetings with the Town's largest departments, i.e.: the Police Department, the Fire Department, the Public Works Department, and with the Board of Selectmen, and have received a detailed explanation regarding their budget requests. We appreciate the effort on behalf of all the boards and departments for controlling expenses in 1989 and for submitting reasonable budget requests for 1990. Therefore, the Budget Committee wholly supports this 1990 budget.

Ronald W. Reed, Chairman
James F. Colby
Robert G. Kenevel

REPORT OF CONSERVATION COMMISSION

In January of 1989 the Conservation Commission was in the middle of the selective timber cut in the town forest. In June, at the end of cutting, we had harvested 377,075 board feet of lumber and 34 cords of firewood. Part of the proceeds went into the town general fund. At the town meeting in March, townspeople voted that the Conservation Commission should have a Town Forest Management Fund and some timber cut proceeds went into that. This enabled us to purchase an additional property which had previously divided the Town Forest. Thanks goes to Helen Armstrong and her sons for selling their property to us. Our surveyor is now finalizing Town Forest maps and they will be available for viewing soon.

The Commission also assisted the Central New Hampshire Regional Planning Commission in promoting Household Hazardous Waste Day. We strongly urge the town to support and utilize this service because of the effects hazardous wastes can have on our precious water resource if allowed into the ground. Our attention to keeping ground water clean now will help to insure that our children and grandchildren will have enough clean water in the future.

The Conservation Commission investigated several dredge and fill applications along with on site inspections and advised the New Hampshire Wetlands Board of our findings. The largest of these applications was on the Lake Forest Development property of E.K. Associates. Commission members attended many meetings and spent many hours of study on this application. The end result was the New Hampshire Wetlands Board denied approval of permit.

The Land Conservation Task Force, a sub-committee of the Conservation Commission, has been successful in gaining preliminary approval of easements on 160 acres of property in town through the Land Conservation Investment Program. Their work is ongoing on this project and several other landowners in town have expressed interest in placing easements on their property in the next round of applications starting this spring. Properties with easements will remain as they presently are now and cannot be used for other than forestry or agricultural purposes.

The Central New Hampshire Regional Planning Commission has recently reported to us regarding the study done on the Beaver Dam Brook Watershed, the large brook entering Couch Pond and Walker Pond. This is a very lengthy and detailed Water Resource Management and Protection Plan for the three towns this watershed exists in, Boscawen, Salisbury and Webster. This information should be very useful to the Conservation Commission, Planning Board and Zoning Board.

In June the Conservation Commission was responsible for sending two students, Amy Lorden and Joshua Nixon, to New Hampshire Youth Conservation Camp. We intend to continue sending two conservation minded students to camp each year as we have done the past few years. Any Boscawen youth interested in going should call a commission member for an application. Thanks to businesses in town who donated funds for camp tuition.

Edward Damon was chairman of the Boscawen Conservation for about eight years. He spent many hours above and beyond what most people

would have. Untold evenings and weekends working on special projects or maybe some extra study on a particular conservation related interest. Many thanks to Ed for a job well done. He is still very active and helpful as a regular member.

The Commission's new meeting time is the fourth Thursday of each month, (the November meeting is on the fifth Thursday) at 7:30 p.m. in the Planning Board/Zoning Board office. We invite all who are interested to attend our meetings.

Respectfully submitted,

Charles Jaworski, Chairman
Boscawen Conservation Commission

CENSUS COMMITTEE OF BOSCAWEN

“Two hundred years and counting: The 1990 Census.”

The first enumeration of the population of the United States took place in 1790. On April 1, 1990, the 21st enumeration of the population of the United States will again take place. The basic reason for taking the 21st census is the same as it was 200 years ago: to get a fair representation among the states in the House of Representatives. It also is used to redraw state and local legislative districts.

But what about Boscawen? How can the census help our community? A great deal of federal and state money is redistributed to local governments based on census statistics. The statistics gathered from the census also helps plan and improve public facilities and programs such as day-care centers, health clinics, programs for the elderly and transportation. It assesses the need for state housing bonds for below-market interest rates on mortgages, helps plan school district boundaries and school construction programs. Census information helps identify areas that might need energy assistance or help develop programs to reduce unemployment.

Your support is needed. Help your community get a complete and accurate count. Your answers are kept confidential. All personal information from the 1990 Census will be locked up until 2062. No agency, the FBI, IRS, courts, military or any other agency, has access to the information on the census.

So I urge you to take the time to answer the census. If you have any questions or concerns, the Census Committee of Boscawen would be more than happy to be of assistance.

“Answer the Census. It counts for more than you think.”

Respectfully,

Janice Steenbeke

BOSCAWEN TOWN MEETING
MARCH 14, 1989

The annual Town Meeting was called to order at 10:00 a.m. by the Moderator Rick Trombly, who read the warrant and declared the polls open until 7:00 p.m.

A motion made by Robert Keneval was that the Articles 2 through 22 be held after the ballots were counted in the evening.

Ballot Clerks were Eugene Randlett, Bernadette Randlett, Marie Sherman, and Carl Glover.

Polls closed at 7:00 p.m. Votes were counted and the results were:

Selectman - 3 Years	Thomas Danko	238
Town Clerk	Barbara M. Holmes	256
Town Treasurer	Patricia C. Knight	248
Trustee of Trust Funds - 3 Years	Cynthia A. Houston	252
Trustee of Library Funds - 3 Years	Mary E. H. Weeks	249

Total Ballots Cast: 266 Regular: 263 Absentee: 3

The meeting was called to order at 7:30 p.m. by Moderator Rick Trombly who gave the report of the balloting.

A motion was made by Sandra Brodeur to proceed to Article 14 at this time before any other articles as the article by law had to be voted on by paper ballot and check list. The motion was seconded by Thomas Danko. There being no discussion, the motion was carried, and the voting ensued.

Larry Bird moved to accept Article 14 as written. Douglas Supry seconded the motion. Discussion: Douglas Supry explained where the land is on a plan, that there are 65 acres for use for the landfill, the potential in the future for anything leaching out from the landfill, the test wells along the perimeter of the boundary lines, and that testing would be done at least four times a year to assure nothing is leaching out of the landfill. Douglas Supry explained that by the time a contaminant would be found in the test wells, it would already be off the landfill property and, therefore, the Town needed to have the extra acreage to stem any liability as it cannot purchase liability insurance at this time in connection with the landfill. Richard Sweatt wanted to know if 10 acres was going to be enough. Douglas Supry explained that 10 acres would be enough to know that contaminants were leaching out of the landfill, not the transfer station, and that it would give enough time to take corrective measures and prevent the contaminants from going any further. When the landfill was put in, it was not thought about at the time to worry about any contaminants leaching out and, therefore, no plans had been made for that possibility. Henry Carrier wanted to know if purchasing the 10 acres of land would stop the contaminants from going further. Douglas Supry explained that it would not. The engineering firm did studies and put pilot wells all over the place to determine where the ground water was going, and the State determined where the test wells would actually be. Stanley Ford wanted to know what the land was assessed for and was told by Douglas Supry that it was assessed for over thirty thousand dollars

(\$30,000.00), that there were other values to the property such as timber and fill matter, soon to be needed for capping and closing the present landfill. Claudia Damon discussed various ways of cleaning up any possible contaminants, all of which would cost a considerable amount of money. Ed Maloof wanted to know if the transfer station would disturb the ground water and was advised that where the transfer station would be mostly on top of the land and that very little excavating would be done, it would disturb the ground water only a small amount. Michelle Tremblay suggested the Town buy the particular piece of property after it may have been tested positive for contamination and was advised by Moderator Rick Trombly that the private property that would have been tested positive would probably be worth more than forty thousand dollars (\$40,000.00).

ARTICLE 1. To choose all necessary Town Officers for the year ensuing.

Official Weighers: Ronald Reed moved to re-elect the incumbents as listed in the Annual Report. The motion was seconded by Eugene Randlett. There being no discussion, the motion passed.

Surveyors of Wood and Lumber: Richard Sweatt moved to re-elect the incumbents as listed in the Annual Report. The motion was seconded by William Harmon. There being no discussion, the motion passed.

Fence Viewers: Dorothy Sanborn moved to elect Douglas Supry a fence viewer. Larry Bird moved to second the motion. Discussion: James Steenbeke was no longer a resident of Boscawen and was, therefore, removed from the office of Fence Viewer. There being no further discussion, the motion was passed.

ARTICLE 2: To raise such sums of money as may be necessary to defray town charges for the ensuing year and make appropriations of the same.

Douglas Supry made a motion to raise one million one hundred seven thousand four hundred fifty five dollars (\$1,107,455.00) which is necessary to defray town charges for the ensuing year and make appropriations of the same. Moderator Rick Tremblay explained that an error was made in the amount of one thousand dollars (\$1,000.00) in the Annual Report (p.14) under Interest Expense-Long Term Bonds & Notes which should be changed to read thirty five thousand six hundred forty dollars (\$35,640.00) which would change the Total Appropriations figure to read one million one hundred seven thousand four hundred fifty five dollars (\$1,107,455.00). Richard Sweatt make a motion to discuss budget item by item. Mickey Cummings seconded the motion. Discussion: Ray Fisher suggested that the figure should just be voted on. After being voted on, the motion to discuss the budget item by item was defeated. Moderator Rick Trombly advised that the motion before the Town was to raise one million one hundred seven thousand four hundred fifty five dollars (\$1,107,455.00).

Don Welcome moved that fifty thousand dollars (\$50,000.00) be added to the budget under the planning and zoning budget bringing this item to fifty five thousand five hundred twenty five dollars (\$55,525.00). This fifty thousand dollars (\$50,000.00) would be used to hire a consulting firm to assist the Planning and Zoning Board in their study of the effects of

the Lake Forest Development. This study would be to cover School, Highways, Police, Fire, and any other affect on the community that may be caused by this development. Steven Harris seconded the motion. Don Welcome explained that while the board was competent enough to do a good job, they would also be competing with professionals and that they were not quite competent enough to do an in depth study necessary to come up with the answers needed. Michelle Tremblay wanted clarification as to whether the contractor would bear the cost of doing the studies. Steven Harris suggested that if the developer were to hire the consultant, there would be no real impartiality. Becky Gauthier advised that in all cases, when a developer is hired, the Town is able to hire a consultant they want to do the studies but that the cost would be charged to the developer. David Nickerson also advised that the Merrimack Valley school has the ability to use the consultant at no cost to the Town. Don Welcome suggested that the Town should hire their own people to verify. Michelle Tremblay reiterated that the Town would hire the consultant and the developer would receive the bill. Ed Brodeur, chairman of the Planning Board, advised that the developer is required to do studies on impact on schools, etc., and stated that the fifty thousand dollars (\$50,000.00) though well intentioned, is just not necessary.

Moderator Rick Trombly advised that if the amendment were to be adopted, then the new total would be one million one hundred fifty seven thousand four hundred fifty five dollars (\$1,157,455.00). Moderator Trombly also advised that the motion to be voted on is whether or not to add fifty thousand dollars (\$50,000.00) to the budget and advised that if the amendment failed, then the original motion would be on the floor. The amendment was voted on but was defeated unanimously. Moderator Trombly advised that the motion on the floor was to raise one million one hundred seven thousand four hundred fifty five dollars (\$1,107,455.00). Discussion: Richard Sweatt wanted to know about an overdraft of the police department budget by twelve thousand dollars (\$12,000.00), and Mark Pepler explained that it went completely over budget by only sixteen hundred dollars (\$1,600.00) as an officer was lost in March and the time for other officers to cover was paid at time and a half.

Claire Clark wanted to know how the budget would affect the tax rate, and Douglas Supry advised that the State sets the tax rate after it has received all of the pertinent information. Richard Sweatt reiterated that the police budget was overspent by twelve thousand dollars (\$12,000.00) according to the Annual Report, and Mark Pepler further explained that except for the difference of sixteen hundred dollars (\$1,600.00), the rest of the money was brought back in reimbursements such as police coverage at school dances, road construction sites, etc., and that it just had to be accounted for differently because of the State.

Thomas Danko advised that the operating budget is only being increased by two hundred seventy three thousand dollars (\$273,000.00) over last year's operating budget which would mean that the tax rate would increase by a little over two dollars (\$2.00) per thousand plus what is being paid now. Betsy Millard expressed her concern that the operating budget does not even include the school plans. David Nickerson reminded the tax payers that the teachers' contracts had not yet been settled and

how would that affect the taxes. Michelle Tremblay said that it would be a thirty two (32) percent increase in taxes over what was paid last year, not including school board decisions. Pat Lemay suggested not cutting services but checking into other revenues other than at the Town Meeting. Moderator Rick Trombly advised that the motion on the floor was to raise one million one hundred thousand four hundred fifty five dollars (\$1,107,455.00). A vote was taken and the motion was defeated. Moderator Trombly received a request for a show of hands on the motion just voted on. Richard Sweatt moved that the budget be cut by ten (10) percent, to raise and appropriate nine hundred ninety six thousand seven hundred nine dollars and fifty cents (\$996,709.50). Henry Carrier seconded the motion. Thomas Danko reminded the tax payers that a ten (10) percent cut would reduce the budget by about one hundred eleven thousand dollars (\$111,000.00) with payments amounting to one hundred sixteen thousand dollars (\$116,000.00) in 1989 bond and interest for the transfer station which would amount to two hundred twenty seven thousand dollars (\$227,000.00) being deducted from the budget being worked out by the people, which leaves forty six thousand dollars (\$46,000.00) more than last year. We would be interested in what we are to do with all these departments in the coming year. Richard Sweatt: We are going to give you the authority to transfer the money from one appropriation to another. Bernadette Randlett asked if the ten (10) percent cut would affect everything, line by line. Moderator Trombly: The way the budget operates is: Although you see a line item budget in front of you, you only raise and appropriate that one lump sum of money. The Selectmen have the authority to spend the money as they see fit. There being no further discussion, the motion to pass the budget in the amount of nine hundred ninety six thousand seven hundred nine dollars and fifty cents (\$996,709.50) was voted on and passed.

ARTICLE 3: To see if the Town will vote to authorize the Selectmen to take such action as may be necessary to negotiate an agreement with the State of New Hampshire and the Town of Canterbury to raise and appropriate a sum not to exceed thirty three thousand four hundred dollars (\$33,400.00) to have the Boscawen-Canterbury Bridge demolished and removed. Estimated cost not to exceed two hundred thousand dollars (\$200,000.00) with the funding split for the State/Towns at 2/3 State and 1/3 being shared equally between Boscawen and Canterbury.

Richard Sweatt moved the article be tabled. Jim Rostron seconded the motion. Article 3 was tabled.

ARTICLE 4: To see if the Town will vote to authorize the Selectmen to negotiate an agreement with the Town of Webster and to raise and appropriate a sum not to exceed fourteen hundred dollars (\$1,400.00) to install a chain link fence at Beaver Dam Cemetery with the cost being shared equally with the Town of Webster. Boscawen's share not to exceed fourteen hundred dollars (\$1,400.00) with the withdrawal of this amount from the interest accumulated on the Cemetery Improvement Fund.

Larry Bird moved the article be accepted. Richard Sweatt seconded the motion. Dorothy Sanborn moved that the article be amended to authorize the Selectmen to raise and appropriate fourteen hundred dollars (\$1,400.00) to restore the present wooden fence, with two gates in the same manner as it is now constructed. James Colby seconded the motion.

James Colby offered to furnish the lumber without charge. Richard Sweatt wanted to know if the Webster Selectmen had been talked to about the issue and was informed that there was a similar article on the warrant. Amendment to Article 4 passed. Motion to pass article as amended passed.

ARTICLE 5: To see if the Town will vote to raise and appropriate a sum not to exceed one hundred and forty four thousand dollars (\$144,000.00) for the purchase of a new Class A combination pumper fire truck. This truck will replace the 1969 Ford Pumper/Tanker which will be sold by sealed bid with the Selectmen reserving the right to accept or reject any or all bids.

Roland "Joe" Bartlett moved the article be accepted. William Harmon seconded the motion. Discussion: Thomas Cummings wanted to know how much money and service had been put into the fire truck in the past year and how much it would cost to bring the truck up to specifications. Roland "Joe" Bartlett explained that the truck has cost approximately one thousand dollars (\$1,000.00) per year for the last five years, and it is twenty years old. Richard Sweatt suggested mutual aid and "Joe" Bartlett explained that mutual aid must be given as well as received. Henry Carrier suggested improvising such as getting a new pump that could be put on the old truck. "Joe" Bartlett explained that cost for pumps run from fourteen to sixteen thousand dollars (\$14 - 16,000.00), which would not include valves, installation, etc. and that it would have to be made compatible with the old truck on which the frame is getting old as well. Refurbishing just the motor and transmission would cost thirty five thousand dollars (\$35,000.00). It would not include necessary air brakes which run about fifteen hundred dollars (\$1,500.00). Betsy Millard wanted to know why the issue couldn't be raised as a bond issue and was advised by Douglas Supry that one hundred forty four thousand dollars (\$144,000.00) is very little to be considered for a bond issue and would be better gotten at a recognized lending institution and pay the going interest rate. Roland "Joe" Bartlett also advised that the State Fire Marshall's Office has nothing to do with the Town's fire equipment, as had been previously mentioned by Betsy Millard, but that the Town is regulated by Insurance Service Offices of Quincy, Massachusetts. Refurbishing the entire truck would cost between eighty five to one hundred thousand dollars (\$85 - 100,000.00) and it would still be the old truck. Bernadette Randlett suggested second hand equipment. Danny Carey advised that it was time to replace the truck as the truck was not made to last twenty years, and that the volunteer men should have decent equipment to work with. Bob Carey wanted to know if there was any difference for fire insurance rates and the liability between a new truck and one twenty years old and was advised by Douglas Supry that he believed there would be no liability and that he did not believe insurance rates would go up or down. Thomas Cummings wanted to know if the new truck would have the same specifications as the old one and would it be housed at the same fire station or would another one have to be built. Bill Harmon stated that if a new truck was not purchased now, then it would have to be done within a few years anyway and to have the truck located at the upper station where there is room and not hurt the people in the lower end for response time. He also stated that it would be pointless to build a new sta-

tion as there was no land in the southern part of the town and to move north, it would still be closer to the existing station. The truck would be of a much larger capacity, it would fit the needs of the Town better, and it would last for another twenty years even though the needs at that time would be greater than today.

Dorothy Sanborn moved to cut off further discussion. Leda Supry seconded the motion. The motion passed.

The votes were counted, and there being 118 "No" votes and 148 "Yes" votes, the article is passed.

ARTICLE 6: To see if the Town will vote to raise and appropriate a sum not to exceed fifteen thousand dollars (\$15,000.00) for the purchase of a police cruiser.

Mark Pepler moved to accept Article 6 as read. Bernadette Randlett seconded the motion. There being no discussion, the motion was passed.

ARTICLE 7: To see if the Town will vote to raise and appropriate a sum not to exceed eight thousand five hundred dollars (\$8,500.00) to help support the Penacook Rescue Squad for its emergency medical services and rescue operations in the Town.

Ron Reed moved the article be accepted. Mickey Cummings seconded the motion. Discussion: David Nickerson wanted to know what exactly was happening with the Penacook Rescue Squad. Pam Davis, director of the rescue squad, advised that December 31, 1989 is the deadline to leave Manor Station, the possibility of moving into the lower end fire station, and looking into land in Boscawen as Boscawen makes up 50 percent of the calls the rescue squad answers each year. There being no further discussion, the article was passed.

ARTICLE 8: To see if the Town will vote to raise and appropriate a sum not to exceed six thousand dollars (\$6,000.00) for the services of the Concord Regional Visiting Nurse Association.

Larry Bird moved the article be accepted. Douglas Supry seconded the motion. There being no discussion, the article was passed.

ARTICLE 9: To see if the Town will vote to raise and appropriate a sum not to exceed three thousand dollars (\$3,000.00) toward the operating expenses of the Penacook Centers—two thousand five hundred dollars (\$2,500.00) for the Youth Center and five hundred dollars (\$500.00) for the Senior Center.

Claire Clarke made motion to accept the article. Larry Bird seconded the motion. Wayne Morse suggested building a community center in Boscawen. A hand vote was requested and there being 84 in favor and 65 opposed, the article was passed.

ARTICLE 10: To see if the Town will vote to raise and appropriate a sum not to exceed three thousand forty seven dollars (\$3,047.00) for the services to low income residents of Boscawen through the Concord Area Center Community Action Program, Belknap-Merrimack Counties, Inc.

Larry Bird made a motion to accept the article as printed. Douglas Supry seconded the motion. There being no discussion, the article passed.

ARTICLE 11: To see if the Town will vote to raise and appropriate a sum not to exceed one thousand eight hundred and sixty dollars (\$1,860.00) to contribute to a regional Household Hazardous Waste Collection Program provided that the Board of Selectmen approves the terms of the Town's participation in the program. This Program will

enhance the proper disposal of hazardous household products such as paint thinner, solvents, pesticides and the like.

Ed Damon moved the article be accepted. Roger W. Sanborn seconded the motion. Discussion: Bill Harmon suggested that there be some guarantee to assure that people were not turned away, as he had been the previous year. Ed Damon advised that people putting the project together in prior years had recommended that they increase the volume capacity to allow people to have the hazardous waste taken away. Sandra Brodeur advised that the Town would like to try for one more year to get more people coming. If it failed seriously after another year, then to consider not doing the Hazardous Waste Collection Program again. Larry Bird wanted to know if crank case oil could be brought to the program, and Ed Damon advised that arrangements have been made to take the crank case oil elsewhere, but it was not suggested to bring the oil to the program. The article passed.

Douglas Supry made motion to reconsider Article 1 to finalize election of the officials of the town. Rick Trombly explained that he inadvertently overlooked the offices of official weighers, surveyors of wood and lumber, and fence viewers. Ken Marshall seconded the motion. The article was passed.

ARTICLE 12: To see if the Town will vote to raise and appropriate a sum not to exceed four hundred sixty dollars (\$460.00) as Boscawen's share of the updating of the Solid Waste Management Plan of the Central New Hampshire Solid Waste District.

Thomas Danko moved that the article be adopted as printed; James Colby seconded the motion. There being no discussion, the motion was passed unanimously.

ARTICLE 13: To see if the Town will vote to raise and appropriate a sum not to exceed two hundred fifty dollars (\$250.00) for the purpose of Town beautification.

Douglas Supry moved that the motion be accepted; Joy Sloane seconded the motion. There being no discussion, the article was passed.

ARTICLE 14: To see if the Town will vote to authorize the Selectmen to negotiate an agreement to acquire ten \pm (10) acres of land adjacent to the landfill to be used in conjunction with the transfer station at a cost not to exceed forty thousand dollars (\$40,000.00). Money to be taken from the transfer station bond. (2/3 ballot vote).

Moderator Rick Trombly advised that the vote on Article 14 needed a 2/3 majority vote in order to pass. There were 271 people having voted, and 180 people in the affirmative were needed to pass the vote, the results being 172 in the affirmative and 99 in the negative, thereby defeating the article.

John Dominic made motion to reconsider Article 14 and was advised by Moderator Rick Trombly that in order to reconsider the vote, Mr. Dominic would have to have voted on the prevailing side, which Mr. Dominic responded he had. Claudia Damon seconded the motion. Moderator Rick Trombly also advised that discussion could only relate to the matter of reconsideration. There being no further discussion, the motion was voted on and defeated.

ARTICLE 15: To see if the Town will vote to authorize the Board of

Selectmen on behalf of the Town, to enact ordinances concerning the supervision and regulation of the collection, transportation, delivery, and disposition of all or part of any solid waste generated within the Town so that the same is delivered to a designated resource recovery facility or such other facilities as may be designated by the Town for processing or for other disposition or handling.

Sandra Brodeur moved that the article be accepted. Larry Bird seconded the motion. Joy Sloane wanted to know what the Town would mean by “regulate,” if it meant that everything was going to have to be separated. Sandra Brodeur explained that the Town was already empowered to regulate how things would be done at the resource collection facility, and that the article is just to prove to the State that the Town has been made aware of this fact and to make the Town aware that they may have to separate the trash into different containers for recycling, and how it must be brought to the landfill—not that it has to be brought to the landfill, but how it must be brought. Sandra Brodeur also explained that the language is what the State recommended the Town use for state funding or assistance in the future for solid waste management. She explained that if trash were separated for recycling, it would lower the cost of shipping ash to a landfill thereby reducing the cost to the Town. Douglas Supry explained that the solid waste cooperative spent in excess of three million dollars (\$3,000,000.00) to purchase a landfill in Franklin to handle the ash that is being generated, which is paid for by the ton. There being no further discussion, the article was passed.

ARTICLE 16: To see if the Town will vote pursuant to RSA 674 to adopt the 1988 Life Safety Code in ordinance form for its administration. Said ordinance would repeal the 1981 Life Safety Code as adopted at Boscawen Town Meeting, March 10, 1981. The full text of said ordinance is on file with the Town Clerk and will be available at Town Meeting.

Douglas Supry made a motion to accept article as printed. Allan Destephano seconded the motion. Discussion: Roland “Joe” Bartlett advised that the Life Safety Code officer was using the 1981 Life Safety Code and should be brought up to par with the Fire Marshall’s Office. Wayne Morse wanted to know what the job of Life Safety Code Officer is. Douglas Supry advised that the job requires interpreting and enforcing the Code and that the Life Safety Code would not affect single family homes. Pat Lemay wanted to know that if buildings were being constructed on her own property, would there be three or four different agencies having to be involved. Sandra Brodeur reiterated that it really did not apply for single family homes and that it was more for the protection of multiple family dwellings. Wayne Morse wanted to know that if an addition was being added to a store, for example, then the rest of the building would have to come up to the new 1988 Code. Douglas Supry advised that it was a Code that was slightly more lenient than the present Code, for example—a large enough window could be used as a means of egress instead of installing a second door. David Nickerson made a motion to move the question and cut off debate. Fred McLaughlin seconded the motion. The motion was voted on and passed unanimously.

Moderator Rick Trombly advised that the motion on the floor was to accept Article 16 as printed. The motion was voted on and passed.

ARTICLE 17: To see if the Town will vote to authorize the Conservation Commission to negotiate for and acquire in the name of the Town suitable parcels of land adjoining the Town Forest and to direct that such parcels so acquired by designated as part of the Town Forest, subject to the approval of the Selectmen. Funds in the Town Forest management fund may be used for this purpose and may be contributed in connection with such acquisitions to the local matching portion required for acquiring conservation land or interests in land and other costs associated therewith for permanent conservation use under the N.H. Land Investment Program (LCIP), RS 221-A. If the income from the Town Forest exceeds four thousand dollars (\$4,000.00) in any fiscal year, commencing with the 1989 fiscal year, the Conservation Commission shall recommend to the Selectmen whether such excess over four thousand dollars (\$4,000.00) is necessary for the expansion or maintenance of the Town Forest or other conservation uses and the Selectmen shall determine whether such excess over four thousand dollars (\$4,000.00) shall be (I) retained in the Town Forest Management Fund for expansion or maintenance of the Town Forest, (II) placed in a conservation fund established under Town Forest, (III) placed in a conservation fund established under RSA 36-A for the proper utilization and protection of the natural resources of the Town, including the acquisition of land and rights inland, and from which funds may be contributed to the local matching portion and other costs associated with the LCIP or (IV) returned to the general fund.

Ron Butler moved that Article 17 be accepted as read. Charles Niebling seconded the motion. Ron Butler moved to amend the article to strike Roman numeral II which reads "placed in a conservation fund established under Town Forest," and to renumber the following Roman numerals. James Colby seconded the motion. Discussion: Becky Gauthier wanted clarification of the amendment. Ronald Butler explained that it was a printing error. Robert Carey wanted to know where the land was that was being discussed. There being no further discussion, the amendment was voted on and passed unanimously.

Ed Damon advised that the Town Forest was a parcel of land located near the proposed development and that a possible acquisition of approximately 20 acres, and possibly more in the future, was still being discussed because of the access it would supply to the Town Forest. Income over four thousand dollars (\$4,000.00) per year from the Town Forest from cutting timber would go into a fund relating to land conservation. Joan _____ suggested that the article be further amended to strike out Roman numeral III which read "returned to the general fund," so as to possibly purchase land in the future for future generations. The motion was seconded by Steven Hollins. Sandra Brodeur explained that it was several years ago that the decision was made by the Town to keep the Roman numeral III as an option. James Colby advised that the money that was being asked for would not cut taxes more than 10 percent. The motion was then voted on, and was passed to strike Roman numeral III from the article. Motion to accept the article as amended was voted on and the article passed as amended.

ARTICLE 18: To see if the Town will vote to empower the Selectmen to borrow such sums of money as may be necessary to meet current expenses of the Town until the taxes are paid to the Treasurer.

Richard Sweatt made a motion to accept the article as printed. Douglas Supry seconded the motion. Discussion: Richard Sweatt moved to amend that taxes be billed two times per year and, therefore, reduce the amount of money that would have to be borrowed. Phyllis Hewey explained that it would cost a great deal more to bill twice per year. Moderator Rick Trombly advised that the amendment would change the intent of the article and was, therefore, not able to be discussed at that time as it had not been sufficiently warned. Moderator Trombly advised that Richard Sweatt could appeal the ruling if he so desired. Moderator Trombly ruled that the amendment offered by Richard Sweatt was not sufficiently warned and changes the intent of the article. The ruling was voted on and accepted.

Douglas Supry moved Article 18 be accepted as written. Claire Clarke seconded the motion. Richard Sweatt asked how to change the once per year tax billing to twice per year tax billing and was advised by Moderator Trombly that the Selectmen have the authority to do that. Douglas Supry advised that an assessment had been done and the cost would increase considerably to be billed twice per year. Phyllis Hewey explained that other towns which do bill twice per year were now regretting that decision because of the extra work, time, and money. There being no further discussion, the article was passed.

ARTICLE 19: To see if the Town will vote to give the Selectmen authority to transfer or sell property taken by the Town in default of Redemption from the Tax Sale or otherwise acquired and such sale to be at public auction with the Selectmen reserving the right to accept or reject any or all bids.

Sandra Brodeur moved the motion be accepted as printed. Larry Bird seconded the motion. There being no discussion, the article was passed unanimously.

ARTICLE 20: To see if the Town will vote to authorize the Selectmen to make application for and to accept and to expend on behalf of the Town any and all advances, grants, or other funds for Town purposes which may now or hereinafter be forthcoming from the U.S.A. or the State of New Hampshire or any Federal or State agency.

Douglas Supry moved that the article be accepted as printed; Claire Clarke seconded the motion. There being no discussion, the article passed unanimously.

ARTICLE 21: To see if the Town will vote to authorize the Selectmen to accept and to expend on behalf of the Town private gifts and contributions for Town purposes.

Larry Bird moved that the article be accepted as printed; Allan Destephano seconded the motion. Discussion: Steve Hollins wanted an explanation as to what gifts and what contributions. Douglas Supry explained that if a person wanted to make a gift, such as James Colby had done with the lumber, to the Town, then the Selectmen could accept it on behalf of the Town. There being no further discussion, the article passed unanimously.

ARTICLE 22: To transact any other business which may legally come before this meeting.

Thomas Danko made an announcement that people 62 or older would be eligible to pick up surplus foods available without charge from noon to 3:00 p.m. on March 15 and 16, 1989.

William Harmon reminded people that on March 28, 1989, at 7:30 p.m., there would be a water precinct meeting and that it would affect all of the tax payers whether or not the tax payers lived within the water precinct. William Harmon suggested that all the tax payers go to the meeting, and reminded the Town that there was a Zoning Board meeting on March 30, 1989 to discuss the project beind done by E.K. Associates.

Steven Hollins suggested the Town send out flyers to make people aware of these meetings and where they would be held.

William Harmon suggested the possibility of placing a vote that it is the intent of the tax payers to make known to the water precinct that the tax payers do not want to pay for their project of extending the right of way approximately 7000 feet and that it should be paid for by the developer. Moderator Rick Trombly advised that the vote would be non-binding. William Harmon moved that a vote be taken as to the consensus of the Town that the Town does not pay for the water precinct or pay for the expenses of extending the right of way. Larry Bird seconded the motion. Sandra Brodeur suggested that the tax payers go to the water precinct meeting to register their intent. There being no further discussion, the motion was passed.

James Colby suggested retaining the forty thousand dollars (\$40,000.00) mentioned in Article 14 for the possibility of a possible leaching problem. Douglas Supry advised that the money had already been appropriated, that the Selectmen were only asking to transfer the money for that purpose. Moderator Trombly advised that he would not allow such debate as the motion for reconsideration had been defeated. The money would be rolled over and used to pay the bond issue money.

Tammy Pepler moved that Article 2 be reconsidered. Robert Carey seconded the motion. Discussion: Tammy Pepler asked how that would affect the police department's budget and the police chief's raise. Mickey Cummings asked why the Town trained new police officers only to have them leave shortly after. Mark Pepler advised that the officers can go to another precinct and get a higher salary even at a lower position. Douglas Supry advised that Article 2 had been discussed and voted on and that further discussion is moot at this point. William Murphy said that when the taxes increase, the tax payers raise goes down.

Douglas Supry advised that the Town has received requests for new Town Clerk hours. Starting in April, the Town Clerk's Office would be open from 8:30 a.m. to 12:30 noon and from 2:00 to 6:00 p.m. on the second and fourth Wednesdays of the month. He also advised that this would be under a three month trial period.

Moderator Rick Trombly moved adjournment of the meeting at 11:00 p.m. Douglas Supry seconded the motion.

Respectfully submitted,
Barbara M. Holmes
Boscawen Town Clerk

ZONING OFFICER'S REPORT

The past year has been comparable to surrounding towns as growth and building has slowed. The Lake Forest Country Club off Queen Street is at a standstill as litigation is before the court concerning Special Exceptions granted by the Zoning Board.

**PENACOOK & BOSCAWEN WATER PRECINCT
WARRANT FOR ANNUAL MEETING**

To the inhabitants of Penacook-Boscawen Water Precinct in the County of Merrimack and the State of New Hampshire, qualified to vote in Precinct affairs.

You are hereby notified to meet at the Boscawen Town Hall in Boscawen in said Precinct on the 27th day of March, 1990 at 7:30 o'clock in the evening, to act upon the following subjects:

1. To choose all necessary Precinct officers for the ensuing year.
2. To see if the Precinct will vote to raise and appropriate the sum of \$2,800,000 for the construction, original equipping and engineering of a new Water Filtration Plant, and to authorize the issuance of not more than \$2,800,000 of bonds or notes in accordance with the provisions of the Municipal Finance Act (RSA Chapter 33) and to authorize the Precinct officers to issue and negotiate such bonds or notes and to determine the rate of interest thereon. (2/3 Ballot Vote Required)
3. To hear the reports of the Precinct officers and pass any vote relating thereto.
4. To see if the Precinct will vote to raise and appropriate the amounts listed in the budget for 1990.
5. To see if the Precinct will vote to raise and appropriate the sum of \$53,000 for the purchase of land adjacent to Walker Pond, for the protection of the water supply. Said land is now owned by Fred W. Courser.
6. To see if the Precinct will vote to raise and appropriate the sum of \$250,000 to buy and install water meters in the consumer's homes and businesses in the Precinct.
7. To authorize the Precinct Commissioners to borrow money in anticipation of Precinct-Taxes and other revenues for the year and to issue notes therefor at such time within one year and at such place as the Precinct Commissioners shall determine.
8. To see if the Precinct will vote to give the Commissioners authority to transfer any unexpended balances of money from one appropriation to another.
9. To transact any other business which may legally come before the meeting.

Given under our hands and seal the 14th day of February, 1990.

James Hewey, Sr.
Charles Scheys
Everett Blaise

A true copy of Warrant: Attest

James Hewey, Sr.
Charles Scheys
Everett Blaise

PENACOOK-BOSCAWEN WATER PRECINCT 1990 BUDGET

PENACOOK-BOSCAWEN WATER PRECINCT COMMISSIONERS' REPORT

Roy F. Weston Incorporated, Engineering Firm, engaged by the Water Precinct to do the preliminary engineering, relative to the Water Treatment Plant, have been moving ahead quite rapidly, having accomplished the site surveys, soil analysis and the most efficient treatment techniques. They have presented a preliminary set of floor plans that we have reviewed and revised. They are hoping to have the plans on the Water Treatment Plant finalized early in the spring, so they could go out for bid.

We and Andy Sharpe, the engineer of the project, have been investigating to see if any outside funding is available.

We would like to openly thank Mr. Robert Collins, Sr., and Mr. Ray Carlson, for all their time and energy, they put into condensing the new RSA Laws, pertaining to the Precinct, into a booklet.

Respectfully submitted,

James Hewey, Sr.
Charles Scheys
Everett Blaise

INDEPENDENT AUDITORS' REPORT

Vachon, Clukay & Co., P.C.
Certified Public Accountants

131 Middle Street
Manchester, New Hampshire 03101

Board of Commissioners
Penacook and Boscawen Water Precinct

We have audited the accompanying balance sheets of the Penacook and Boscawen Water Precinct as of December 31, 1989 and 1988, and the related statements of income and retained earnings, and cash flows for the years then ended. These financial statements are the responsibility of Precinct Officials. Our responsibility is to express an opinion on the financial statements based on our audits.

We conducted our audits in accordance with generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly in all material respects the financial position of the Penacook and Boscawen Water Precinct as of December 31, 1989 and 1988, and the results of its operations and its cash flows for the years then ended, in conformity with generally accepted accounting principles.

Manchester, New Hampshire 03101

Board of Commissioners
Penacook and Boscawen Water Precinct

Our report on our audit of the basic financial statements of the Penacook and Boscawen Water Precinct for 1989 and 1988 appears on the first page of these financial statements. That audit was made for the purpose of forming an opinion on the basic financial statements taken as a whole. The schedule of budgetary expenses is presented for additional analysis and is not a required part of the basic financial statements of the Penacook and Boscawen Water Precinct. The schedule of budgetary expenses is presented in accordance with the requirements of the New Hampshire Department of Revenue Administration which differ from generally accepted accounting principles. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Vachon, Clukay & Co., P.C.

PENACOOK AND BOSCAWEN WATER PRECINCT NOTES TO FINANCIAL STATEMENTS December 31, 1989 and 1988

NOTE 1 — SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies of the Penacook and Boscawen Water Precinct (the Precinct) conform to generally accepted accounting principles as applicable to governments which operate utilities that are financed and accounted for in a manner similar to private business enterprises, except as indicated.

Basis of Accounting

The Precinct's financial statements have been prepared on the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recognized when they are incurred. Estimated amounts have not been recorded for services rendered but not billed as of the close of the year as required by generally accepted accounting principles. Interest on General Obligation Debt is recognized when due rather than when incurred in accordance with State requirements. The Precinct believes that the effects of these departures are immaterial to these financial statements.

Utility Plant in Service and Depreciation

Utility plant in service is stated at cost. Depreciation is provided over the estimated useful lives of the various components using the straight-line method. Estimated useful lives are as follows:

	Years
Building and Structures	40
Standpipes	30
Mains, Hydrants and Services	30-50
Other Equipment	5-20

Although still in use, fully depreciated assets are removed from the accounts. Depreciation expense was \$26,153 in 1989 and \$25,178 in 1988.

Inventory of Materials

Inventories of materials consist of water system materials and supplies and are valued at cost.

Cash

The Precinct's cash at December 31, 1989 consists of deposits with a book balance of \$201,824 and a bank balance of \$36,073. The bank balance is fully insured by federal depository insurance.

NOTE 2 — UTILITY PLANT IN SERVICE

A summary of utility plant in service component balances at December 31, 1989 and 1988 is as follows:

	1989	1988
Water Supply Land	\$ 16,967	\$ 16,967
Water Supply Structure	3,592	3,592
Pumping Station Structure	57,390	57,390

Water Storage Structure	258,628	258,628
Water Department Garage	18,249	18,249
Pumping Station Equipment	58,987	58,987
Mains	516,634	516,634
Services, Hydrants and Meters	55,583	53,996
Engineering	33,972	32,916
Other Equipment	16,424	16,424
Construction in Progress	38,599	14,000
Total	1,075,025	1,047,783
Less Accumulated Depreciation	497,286	471,133
Net	<u>\$577,739</u>	<u>\$576,650</u>

NOTE 3 — LONG-TERM DEBT

Under State law, long-term debt is a direct obligation of the Precinct for which its full faith and credit is pledged, and is payable from taxes levied on all taxable property located in the Precinct.

Following is a summary of long-term debt at December 31:

	1989	1988
\$250,000 Water Bond Issue of 1974. Payable in annual installments of \$12,500 through May 1994. Interest payable semi- annually at 4.85 % to 5.65 %	\$ 62,500	\$ 75,000
\$121,000 Water Bond Issue of 1967. Payable in annual installments of \$5,000 through March 1991. Interest is payable semi-annually at 4.2 %	<u>10,000</u> 72,500	<u>15,000</u> 90,000
Less Current Maturities included in Current Liabilities	<u>17,500</u> <u>\$55,000</u>	<u>17,500</u> <u>\$72,500</u>

The annual requirements to amortize the outstanding debt as of December 31, 1989, including interest payments of \$9,239 are as follows:

Year Ended December 31,	Amount
1990	\$20,990
1991	20,074
1992	14,268
1993	13,556
1994	12,851

NOTE 4 — PROPERTY TAXES

The Precinct is empowered by State law to raise taxes based upon the valuations of real property located within its boundaries. The property taxes are collected by the municipal governments of Boscawen and Concord. In 1989 tax levies from Boscawen and Concord were \$174,404 and \$10,088 respectively.

NOTE 5 — RESTATEMENT

During the year an accounting error was discovered. Retained earnings at January 1, 1988 has been restated by \$2,034 to give retroactive effect to correction of the error.
